Subject: Language?

Matt-

I understand that you recently spoke to Louise Gross in the Office of Regional Counsel at EPA concerning USG's violation at its Red Wing, Minnesota plant of the Primary National Air Ambient Quality Standards for sulfur dioxide that EPA revised on June 22, 2010. Louise stated that you informed her that she could choose not to speak with you about it, but she agreed to. I'm writing to address your communications with EPA going forward.

I'm glad that you feel comfortable discussing environmental law issues with Louise, and hope this continues; except with regards to EPA's case concerning its Red Wing Facility. Please direct all such communications to me, as appropriate under the protocol of Illinois Rule of Professional Conduct 4.2, and ISBA Professional Conduct Advisory Opinion No. 13-09 (October 2013).

I appreciate your cooperation in this matter.

John
